APPROVAL OF PLANS AND SPECIFICATIONS

July 13, 1960

Marlin-Rockwell Corporation  
Plainville, Connecticut

Document No. 26

Attention: Mr. J. S. Appleyard, Manager

Gentlemen:

You have submitted an application dated June 9, 1960 for the regulation of a new source of pollution on the Quinnipiac River in the Town of Plainville in accordance with the plans and specifications submitted to this Commission with your application.

These plans and specifications covering the construction of an industrial waste treatment plant consist of:

1. One surge tank with oil skimming apparatus
2. Two 15,000 gallon batch treatment tanks
3. Treatment building, pumps, chemical mixers, feeders, piping, valves and all other necessary appurtenances.

These plans and specifications have been reviewed and are hereby approved with the following provisions:

1. That the industrial waste treatment system shall be operated and maintained properly.
2. That should future conditions warrant, the industrial waste treatment system shall be modified, enlarged or extended or the method of operation of the same altered in accordance with the requirements of the Water Resources Commission.
3. That a final and complete set of as-built drawings will be submitted upon completion of the project.

This letter will be considered as the Permit required by Section 25-23 of the 1958 Revision to the General Statutes.

Very truly yours,

AR200072

State Water Resources Commission
